

# BoF: Community Expectations

Christian Horn & Lukas Berk

# Possible Topics

## PMDA Language Implementation

Community Preferences? Python > Perl?

## Build Check -> CI -> QA

What are your expectations for a smooth PR?

## Packaging for other distributions

## Debugging functionality of PCP

Where would you look for documentation?

## Mailing list? Slack? IRC? Github?

Where should we be/monitor?

## Contributing QA with a patch

How to best encourage(?) require(?)

## Response time from Maintainers?

## Anything else you expect that we lack?

Cut wood, carry water
